Part time/Contract position

Research Assistant: Job Description

This position will report to Director, Drug Metabolism

Amira Pharmaceuticals, Inc. is seeking a Research Assistant experienced in biology or chemistry for a part time/contract position in the Drug Metabolism group. Experience with quantitative bioanalysis using LC-MS/MS systems for the analysis of small molecules, conducting in vitro metabolic stability, cytochrome P450 and other DMPK assays is a plus. The ability to manage work independently while working effectively in a team is required.
